# ARENA<sup>HD</sup> OLYMPIA

FREE FORM 6/8 BASE DIGITAL LENSES  
HIGH PERFORMANCE SUN & SPORTS EYEWEAR.

ARENA OLYMPIA lenses provide an exceptionally wide field of clear vision through implementation of digital ray path technology. State of the art optimisation at each point on the lens ensures sharp vision in every area of gaze. Digital Ray-Path technology minimizes the loss of optical quality in wrapped frames through oblique aberration optimization and prismatic effect compensation.

Supplied with a back surface Hard Hydrophobic AR coat for top performance.

Available sizes 75/95 - other sizes may be possible.

Standard power range +/-6 with cyls to 4 depending on frame size and centration.

Other powers may be possible.

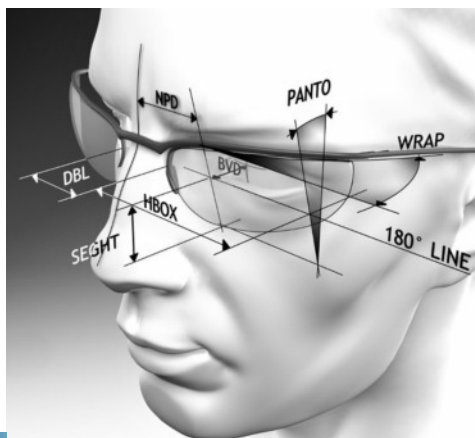

Mirrors:- Gunmetal, Bright Silver, Blue, Gold, Green & Red

Glazing styles:-

Full rim plastic or Metal

½ Rim Clip In Styles

Rimless Styles

Full personalisation requires frame box measurements A, B & DBL. Back Vertex Distance, Pantoscopic Tilt Frame Wrap Angle & Height (SV & Prog). Minimum Fitting Height 16mm or 18mm

# ARENA ACTIVITY

The original and very popular ARENA product.  
Customised wrapped lenses for sport, sun or leisure.

A cost effective solution for sun worshippers, sports enthusiasts, fashionistas and those preferring wrapped everyday wear. Manufactured using traditional production techniques enhanced through compensation of position of wear when given Pantoscopic Tilt, Wrap Angle and Back Vertex Test/Fitting Distances.

## BASIC SPECIFICATIONS

**BASE CURVE** - matched to the frame.

**UV BLOCK** - included with all lenses.

**ULTRA HARD COAT** - supplied as standard.

**LENS STYLES** - Single Vision, Bifocal and Progressive. (Others may be possible)

**LENS SIZE** - Up to 75mm with decentration to 95mm where possible. Larger sizes may be available.

**Rx RANGE** - +6.00 to -6.00 / with opposite cyls to 4.00 depending on frame size and centration.
