ARENA SPORTS RX

**COMPLETE FRAME & LENS PACKAGE WITH FULLY
CUSTOMISED ARENA POLYCARBONATE LENSES
INDIVIDUALLY CRAFTED FOR BASE CURVE,
COLOUR AND PRESCRIPTION.**

SPECIAL GLAZING FEATURES

BRIX

Our Special Glazing Facility enables the fitting of ARENA prescription lenses to half rim styles. Lenses are precisely rebated to follow the contour of the rim and enable them to click securely into the frame.

ECCO

SLY

DIRTY DOG LIFESTYLE frames come in a wide range of designs. Retro or Wrapped, Metal or Super Tough TR90 thermoplastic. There is surely something for everyone at www.dirtydog.com. Arena lenses can be supplied to match the plano design presented with the frame or you may customise your order with a lens style or colour to suit a personal preference.

DIRTY DOG SPORTS & EXTREME SPORTS

glasses are designed for the serious sports enthusiast in durable TR90 material. The floatable Curl II Extreme style is floatable for high action watersports and converts to regular sunwear with a fully detachable headband.

**CURL II
FLOATABLE**

OTHER LENS TYPES - CHECK FOR AVAILABILITY ON INDIVIDUAL FRAMES

	COLOURS (% ABS)
Polarised	Available colours listed inside back page.
Transitions VII	Grey or Brown
XTRActive	Grey or Brown
SF-PhotoSport	Custom Photochromics from the Solar-Flair range.
Drivewear	From 65% ABS Cactus to 85% ABS Warm Brown
EXTRAS	
Mirrors	Gunflash, Bright Silver, Gold, Blue, Red, Green
Reflection Free Coat	Hydro- Oleophobic Coat applied to back surface or both.
Shade 4 Colours	Grey or Brown
Gradient Colours	On any colour
Blended Colours	A blend of 2 or more colours (eg pink to blue)

INFINITY SPORTS COLOURS (% ABS given)

The following standard colours will be given unless specified otherwise. We are happy to match your sample or vary the percentage absorption of the infinity sports range listed below.

DARK GREY 85% ABS - A neutral colour suitable for all outdoor sports giving sun protection whilst retaining natural colour balance.

DARK BROWN 85% ABS - blocks a high percentage of blue light. Gives enhanced contrast and reduces light levels in bright sunlight. Suitable for most outdoor sports.

DARK GREEN 85% ABS - Blocks out most blue light. Provides a more natural vision with excellent contrast between colours.

PALE YELLOW 10% ABS - Excellent for very dull low light conditions. Suitable for any sport where added contrast is needed both indoors and outdoors.

YELLOW 20% ABS - High contrast in poor light and filters blue light. For indoor and outdoor use. Popular for shooting, fishing, cycling and winter sports.

ORANGE 35% ABS - More subdued than yellow but still gives excellent contrast and blocks blue light.

AMBER 65% ABS - Gives improved contrast in brighter conditions whilst filtering blue light. Suitable for most sports activities and for daytime driving.

ROSE 70% ABS - Improves contrast by modifying greens and blues to give greater definition between colours. Popular with clay shooters and glare reduction in snow conditions.

LIGHT PURPLE 40% - Dampens green and enhances orange for target shooting. Glare reducing in very bright snowy conditions and favoured by skiers.

DARK PURPLE 70% ABS - Excellent in very bright conditions for glare reduction and contrast of orange against green.

CUSTOM PHOTOCROMIC LENSES

SF-PHOTOSPORT lenses are available with **INFINITY SPORTS** colours in deactivated absorptions of 15%, 25%, 35%, 50%, 60% or 70%.

POLARISED LENSES (% ABS given)

SMOKE GREY 83%, NEUTRAL GREY 85%,
BROWN 78%, BROWN 90%, MELANIN BLUE BLOCK 83%
GREEN 85%, COPPER 80%, YELLOW 25%, BLUE 82%

Polarised colours may be limited in some other lens materials.
