AQUAVIZ OTS & OTS PRO *Wider vision greater comfort.*

Suitable for pool and open water swimming, surfing, canoeing and similar watersports. Standard power range +/-6.00 with opposite cyls to 6.00. Higher powers may be possible

Designed following extensive research to provide greater comfort and wider vision than regular swimming goggles. The mask sits around the eyes distributing pressure over a wider area and avoids the discomfort often placed on the eye sockets by regular goggles. Ultra tough polycarbonate lenses block harmful UV and include anti-fog coating. Supplied complete with an interchangeable prescription insert fitted with single vision, bifocal or progressive lenses in clear, coloured or polarised forms.

AQUAVIZ OTS - the standard mask in the range supplied with a clear prescription insert and mesh carrying bag.

COLOURS Blue/Silver
 Blue White
 Purple/White

AQUAVIZ OTS PRO has a scratch resistant Polycarbonate frame ensuring a high level of protection from knocks or impact. Supplied with a matching black insert and mesh carrying bag.

COLOURS Black
 Black/Orange

PREScription DIVING MASKS

for Professionals and Amateurs

We offer an extensive range of prescription masks.

Type 1 - Ready-Made with spherical power glass lenses approximating the required prescription fitted in place of the standard plano eyepieces. This system may be adequate for simple prescriptions.

Type 2 - Bonded Rx - Flat Glass prescription lenses matching the wearers exact prescription bonded directly to the inside of the face mask. Good vision is enabled and the bonded unit reduces the chance of fogging. Bifocals are possible.

Type 3 - Rx Insert - This type of mask utilises a prescription insert which is glazed to the customers exact prescription ensuring good vision. Prescription lenses may be CR39, polycarbonate or any suitable material. Bifocals and varifocals are possible.

Type 4 - Direct Glaze - Glass prescription lenses replace the flat planos at the front of the goggle. Available only with Seac Sub goggle (see page 12)

READY TO WEAR MASK with SPHERICAL POWER LENSES

-1.00D to -7.00D in 0.50D steps.

Different powers may be ordered for the right and left lenses.
One Step strap adjustment. Hypo-allergenic silicone face skirt and strap. Available in both junior and adult sizes.

COLOURS: Blue and Red

AQUAVIZ BTS - SNORKEL & DIVE

Designed for underwater activities up to 150' depth.

AQUAVIZ BTS

The watertight latex-free hypoallergenic Azion skirt adapts to the face shape for a comfort and a silicone adjustable twin head strap ensures a secure personalized fit. Supplied with a clear prescription insert and mesh carrying bag.

COLOURS Blue/Clear & Purple/Clear

AQUAVIZ BTS PRO Shares the same features and attributes as the standard BTS in a light weight scratch resistant PRO polycarbonate frame. Supplied with a matching black prescription insert and mesh carrying bag.

COLOUR Black

INTERCHANGEABLE PRESCRIPTION INSERTS

In Crystal or Black

Designed to fit any of the AQUAVIZ or SPORTVIZ frames

AQUAVIZ UTS - FREE DIVE & SCUBA

AQUAVIZ UTS PRO A low volume dive mask in a lightweight scratch resistant PRO polycarbonate frame. The mask is suitable for most face shapes and sizes and the tempered glass lens is rated for use to 330' depth. Fitted with a silicone gasket and twin headstraps providing a comfortable and watertight fit. Supplied with a matching black prescription insert and protective hard case.

COLOUR Black

BONDED GLASS PRESCRIPTION LENSES

We can bond lenses to a suitable mask that you provide (individual faceplate lenses must be removable for bonding) or we can supply a similar mask to the one shown below. Optical centres need to be marked on the faceplate for accurate prescription placement.

Bling

Extreme performance sports goggle

Ideal for watersports.

Frame colours Black and Navy

Size 56/36 x 18

A closed cell foam gasket seals out the elements and ensures a close facial fit. The vented 6 base Rx adapter fits to the front of the frame ensuring a wide field of view. EXTRA ADAPTERS can be purchased for fitting alternative lens types. INCLUDES AS STANDARD: Frame with head strap, deluxe zipper case, microfibre cleaning cloth and Polycarbonate or Trivex prescription lenses. Removal of the 6 base lens rims converts to an 8 base wrapped frame to allow fitting of ARENA Olympia high curve prescription sports lenses.

Dirty Dog Curl II

Wetglasses for extreme Watersports

These extreme performance floatable sports goggles have water escape vents and channels to allow water to flow away from the lenses. A detachable headband is removeable for wear as stylish sunglasses. Supplied with case and either polycarbonate or trivex Rx lenses in clear, polarised, photochromic or photo-polar form.

Frame colours Black and Crystal, Size 61/39 x 18
